American College  
of Toxicology

## Member Dues Assistance Request Form

ACT encourages a diverse membership from the global community. It is recognized that toxicologists are active in areas of the world where even reduced dues payments may present a challenge. The College will consider, on a limited and case-by-case basis, requests for financial assistance with membership fees. Requests will be reviewed in conjunction with each new membership application cycle.

If you wish to be considered for ACT membership dues assistance, please complete this request with as much detail as you feel is appropriate and return the form to [acthq@actox.org](mailto:acthq@actox.org) for review. Consideration for each request will depend on time of submission.

If you are a prospective member of the College, please submit your application for membership and your dues assistance request at the same time. The online application link can be found on the ACT [website](#).
